

# Jeneer Smart Pump Technology

## Zero in-Well Moving Parts Keeps You Pumping Longer:

- ✓ Tri-Probe Technology senses the presence of liquid
- ✓ Handles difficult wells – no parts to get gummed-up
- ✓ Simplifies Maintenance – reduces parts inventory
- ✓ Evaluated Temperatures Compatible up to 250F

## NEMA IV Module Provides:

- ✓ Proprietary Software helps prevent build-up on probes
- ✓ Years of Field Proven Reliability
- ✓ Float position indicator so you know if your pump should be cycling
- ✓ Communications Up-Grade sends you your pump data
- ✓ **New** Jeneer Data Collection APP

*Put the Jeneer Smart Pump to work on your site and start seeing your maintenance costs Decrease and your leachate recovery Increase.*

## Testimonials

*"The communication option was very helpful in verifying the pump operation and trending our pump data."*

Marcus T.

*"We have used this pump some difficult wells on our site and it handled the high temperature, scaling and sludge with minimal issues."*

Mary G.
