

Jeneer Smart Pump Technology

One in-Well Part Keeps You Pumping Longer:

- ✓ Reduces Maintenance costs up to 50%
- ✓ Reduces Cleaning time up to 60%
- ✓ Reduces Parts Inventory
- ✓ Evaluated Temperatures Compatible up to 250F

NEMA IV Module Provides:

- ✓ Automatically Re-Starts the pump should it stall no need to babysit
- ✓ Gives you easy to read accurate cycle counts and calculates gallons pumped
- ✓ Float position indicator so you know if your pump should be cycling
- ✓ Communications Up-Grade sends you your pump data
- ✓ **New** Jeneer Data Collection APP

Put the Jeneer Smart Pump to work on your site and start seeing your maintenance costs Decrease and your leachate recovery Increase.

Testimonials

"I have not pulled my Jeneer Pump in two years In the same well I was pulling my other pump several times per year."

Emma W.

"I have silty condensate sump conditions that required at least weekly attention. My Jeneer Pump ran for over 500,000 cycles before I needed to clean it."

John B.
